

## Become a Sierra Harvest Farm to School Advocate

Write a letter or talk to your administrators about the positive impacts you see from the program at your school. Schools pay a participation fee of only 10% of the program cost, but administrators need to hear about the benefits of the Farm to School program in order to keep funding for this program a priority.

Volunteer with the Farm to School program! Parents can get involved in garden cart produce sales, helping with field trips, and volunteering in school gardens. Get in touch for more information: [Marisha@sierraharvest.org](mailto:Marisha@sierraharvest.org)
